That would be great if you could fax them. I just did not see the letters in the permit file...

My fax: 303-312-6116

If you could give me a heads up when you fax this, that way I can be on

the look out for the letters. (We share a fax with the entire floor)

Subject: RE: Beneficial Use Letters

Elaine:

Yes, we submitted two letters:

1) Dated Feb. 4, 2010 & signed by Jolene Scheer, Ty Nicholls, and Brodie

Nicholls - same letter was for beneficial uses at Sheldon Dome and Rolff

Lake.

1) Dated January 20, 2010 & signed by Darwin Griebel - same letter for

beneficial uses at Sheldon & Rolff Lake.

The same two letters were submitted for both applications, as the discharge

waters from both of these fields benefit the same group of ranchers. The

letters reference both Sheldon & Rolff Lake.

If you cannot find them, I can fax you copies. I will need your fax number

to send.

Thanks,

Marvin Blakesley

Marvin, I don't see updated beneficial use letters from landowners included with your current application for the Sheldon Dome Field permit

WY 0024953. Did you submit recent letters along with the application?

The latest letters that I found were dated August 2002.

Subject: RE: SIC Codes

Marvin:

For all renewals, we will need new beneficial use letters from landowners to demonstrate that those uses are currently still being

put  
in practice. As you know, agricultural practices can change over  
time -  
this is a core component of these permits in order for us to  
consider  
allowing surface discharge.

Subject: RE: SIC Codes

Elaine:  
Thanks for the response. This confirms the 1311 SIC code for Crude  
Petroleum and Natural Gas.  
On another note, can we use the past Beneficial Use Letters from  
landowners  
& tribal surface lessees documenting the beneficial uses of  
produced  
water  
discharges for livestock watering, wildlife benefits, riparian &  
wetlands  
creation, etc. from the Circle Ridge, Maverick Springs, Chatterton,  
&  
Steamboat Butte Fields? We still have all these same uses today,  
which  
continue to benefit area agriculture producers and wildlife  
populations.  
It  
seems quite redundant to continue to request these same letters  
from  
these  
folks every 5 years. Please advise.  
Hope you had a good Holiday Season.

(Embedded image moved to file: pic14423.gif)

Let me know if the table above doesn't come through. The lefthand column  
are the SIC codes, the right hand column is the equivalent NAICS code.

Subject: SIC Codes

Elaine:

I assume the SIC Code for the Crude Petroleum and Natural Gas facilities

is

still 1311? If this is incorrect, can you please provide me with the

correct SIC code and description.

SIC 1311 - Crude Petroleum and Natural Gas is the one we used for the

recent

Sheldon Dome and Rolf Lake NPDES (Phoenix Production) permit renewals.

Thanks,

Marvin Blakesley
